

RPC KUTENHOLZ

THERMIC ULTRA RANGE

DESCRIPTION

The Thermic jar range is ideal for oxygen sensitive food products such as fruit or vegetables to give your products a good shelf-life when stored under ambient conditions.

The Thermic ribs® and material structure of the jar have been specifically designed to allow the jars to withstand high temperature processing, even sterilisation.

FEATURES

- Multilayer PP/EVOH/PP structure for high oxygen barrier
- Good contact clarity and glossy surface finish
- Improved kitchen safety
- Can withstand hot-fill and pasteurisation and sterilisation processes up to 121°C
- Closures with induction heat seal (I.H.S.) foils made by RPC Promens Halstead and can be supplied ex-stock from RPC Kutenholz. Please check for colours
- Containers comply with current food contact legislation
